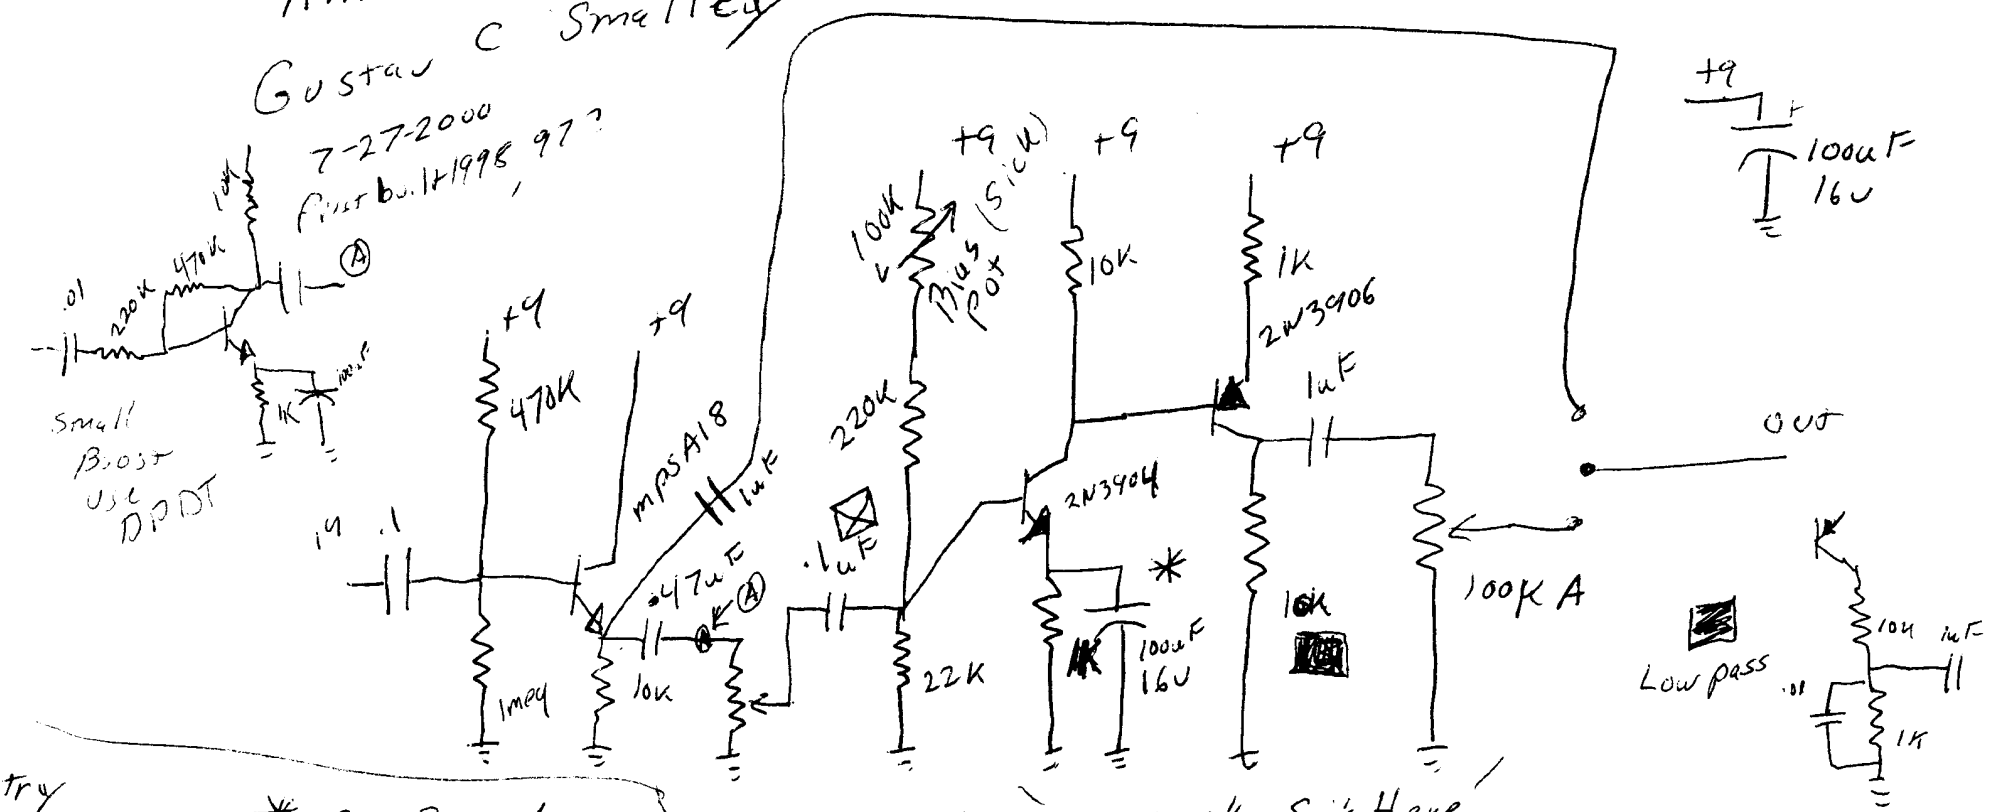
Another Sick Fuzz

Gustav C Smalley

7-27-2000

First built 1998, 97?



* try down to say .68uF .47uF

* can Drop down for more or an overdrive 100K Lin

any ok S is Here

☒ try .1 .047 .022 etc.

Can wire this up using a SPDT if you don't mind the Buffer with the MPSA18 on can up the input2 try a 1.2meg and 2.2meg Gated to Smooth Fun with Bass, guitar, synth effect Loops or a Dpdt for an Led and envelope filters
