UNIVOX backs 'em up...

Jeff Beck
Tom Bogert
Camino Appice

Super-stars like Beck, Bogart and Appice know what they want in sound... and Univox gives it to them the way they like it. Led Zeppelin, The Doors, Cactus, and Billy Preston use Univox amps too. They all know what hard driving amps Univox makes with pure expression of sound... But Univox knows of the hidden potential all around... so they've designed amps for

everyone: Write for our free literature and poster. Would all these pros use our amps if they weren't super?
